Signal word Danger

ard statements 11---

| Highly flammable liquid and vapour.  |
|--|
| May be fatal if swallowed and enters airways.  |
| Causes serious eye irritation.   |
| May cause damage to heart through prolonged or repeated exposure if swallowed.                 |
| May cause drowsiness or dizziness.   |
| Causes skin irritation.  |
| Toxic to aquatic life with long lasting effects.   |
| 5  |
| Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
|  |

# **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

# **General information**

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

# **Following inhalation**

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

## Following skin contact

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

|                        | Handling and storage   |                  |

Avoid contact with skin, eyes and clothes. Avoid respiration of swarf. Personal protection equipment: see section 8 Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

# Advices on general occupational hygiene

When using do not eat, drink or smoke.

# 7.2 Conditions for safe storage, including any incompatibilities

| 693-01002-00 | Nitro-Verdünner 1002      |                        |
|--------------|---------------------------|------------------------|
| Version 12.1 | Revision date 07-May-2024 | Print date 15-May-2024 |

# Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

# Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

LGK3 - Flammable liquids Storage class

# Further information on storage conditions

Keep container tightly closed. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Store in a well-ventilated and dry room at temperatures between 5 °C and 35 °C.

### Specific end use(s) 7.3

Observe technical data sheet.

# 8.2 Exposure controls

Provide good ventilation. This can be achieved with local or room suction.

# Personal protection equipment

# **Respiratory protection**

In case of inadequate ventilation wear respiratory protection.

# Hand protection

Suitable material: NBR (Nitrile rubber) Thickness of the glove material >= 0.4 mm Breakthrough time >= 480 min

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles: EN ISO 374

# Skin protection

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

# Eye/face protection

Eye glasses with side protection: EN 166

# Body protection

When handling with chemical substances, protective clothing with CE-labels including the four control digits must be worn. Antistatic clothing including shoes are recommended.

# Environmental exposure controls

Do not allow to enter into surface water or drains.

# **SECTION 9: Physical and chemical properties**

not applicable

# **SECTION 10: Stability and reactivity**

# 10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

# 10.2 Chemical stability

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7.

# 10.3 Possibility of hazardous reactions

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

# 10.4 Conditions to avoid

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7. Hazardous decomposition byproducts may form with exposure to high temperatures.

## 10.5 Incompatible materials

No further relevant information available.

# **10.6 Hazardous decomposition products**

Hazardous decomposition byproducts may form with exposure to high temperatures e.g.: Carbon dioxide (CO2), Carbon monoxide, smoke.

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

### Acute toxicity

Based on available data, the classification criteria are not met.

# Skin corrosion/irritation

Causes skin irritation.

# Serious eye damage/eye irritation

Causes serious eye irritation.

# Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

# **Overall assessment on CMR properties**

Based on available data, the classification criteria are not met.

| 693-01002-00 | Nitro-Verdünner 1002     |
|--------------|--------------------------|
| Version 12.1 | Revision date 07-May-202 |

# STOT-single exposure

May cause drowsiness or dizziness.

# STOT-repeated exposure

May cause damage to heart through prolonged or repeated exposure if swallowed.

### Aspiration hazard

May be fatal if swallowed and enters airways.

### Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: Headache, Dizziness, fatigue, amyosthenia, Dizziness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

4

### 11.2 Information on other hazards

### Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to humans as no components meets the criteria.

# **SECTION 12: Ecological information**

### 12.1 Toxicity

\*

Toxic to aquatic life with long lasting effects.

### 12.2 Persistence and degradability

No information available.

### 12.3 Bioaccumulative potential

Partition coefficient: n-octanol/water = 3.15 (Reaction mass of ethylbenzene and xylene)

Partition coefficient: n-octanol/water = 1.73 (n-butyl acetate)

Partition coefficient: n-octanol/water = 3.44 (cyclohexane)

Partition coefficient: n-octanol/water > 0.86 (ethyl acetate)

## 12.4 Mobility in soil

No information available.

# 12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

## 12.6 Endocrine disrupting properties

This product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms as no components meets the criteria.

# 12.7 Other adverse effects

No information available.

# **SECTION 13: Disposal considerations**

# 13.1 Waste treatment methods

# Product/Packaging disposal

Do not empty into drains; dispose of this material and its container in a safe way. Waste disposal according to directive 2008/98/ EC, covering waste and dangerous waste.

# Waste codes/waste designations according to EWC/AVV

140603\* - other solvents and solvent mixtures

# Other disposal recommendations

Non-contaminated packages may be recycled. Vessels not properly emptied are special waste.

# **SECTION 14: Transport information**

# 14.1 UN number or ID number

UN 1263

|   |   | ental regulations/legislation specific for the substance or mixture    |                               |  |

# **EU legislation**

## **Restrictions of occupation**

Observe employment restrictions under the Maternity Protection Directive 92/85/EEC or stricter national regulations, if applicable. Observe restrictions to employment for juveniles according to the 'juvenile work protection guideline' (94/33/EC) or stricter national regulations, if applicable.

# Directive 2010/75/EU on industrial emissions [Industrial Emissions Directive]

VOC value: 842 g/l

# Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances [Seveso-III-Directive] Hazard categories / Named dangerous substances

E2 Hazardous to the aquatic environment in Category Chronic 2 Quantity 1: 200t; Quantity 2: 500t P5c FLAMMABLE LIQUIDS Quantity 1: 5,000t; Quantity 2: 50,000t

# **National regulations**

Observe in addition any national regulations!

# 15.2 Chemical Safety Assessment

# **SECTION 16: Other information**

List of relevant hazard statements and/or precautionary statements from sections 2 to 15 Highly flammable liquid and vapour. H225 Flammable liquid and vapour. H226 H304 May be fatal if swallowed and enters airways. H312 Harmful in contact with skin. Causes skin irritation. H315 H319 Causes serious eye irritation. Harmful if inhaled. H332 H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H373 May cause damage to heart through prolonged or repeated exposure if swallowed. H400 Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects. H410 H411 Toxic to aquatic life with long lasting effects. EUH066 Repeated exposure may cause skin dryness or cracking.

Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]

| Flam. Liq. 2               | On basis of test data. |
